Pétillant Naturel or Pét-Nat Rosé Touriga Nacional
Quinta do Tamariz 2022 's first foray into pétillant naturel rosé and we are incredible pleased with the results.

winemaking

After a careful manual harvest, choosing from the vineyard itself, the grapes were taken to the cellar in small boxes.

The grapes were pressed without destemming and fermented in stainless steel vats, with very slow fermentation and controlled temperature for a few weeks.

Before finishing the fermentation, being at a certain level of sugar, which we evaluate through daily analyzes in a certified laboratory, the wine was bottled manually, without filtration and without the addition of sulfur dioxide, having finished the fermentation in the bottle, with lees.

Fruit of the fermentation of natural sugars in the bottle, it releases natural gas, becoming a "pétillant naturel" wine.

Appearance : Brilliant and effervescent, subject to deposit.

Flavours: Vibrant deep purple, bursting with raspberry, strawberry

Taste: Dry, fruity, intense, refreshing and well balanced.

Das primeiras uvas da nova vinha de Touriga Nacional da Quinta produzimos o nosso primeiro Pet Nat rosé. Espumantizado pelo método ancestral, tendo o final da fermentação ocorrido em garrafa, estando por essa razão sujeito a criar depósito.

With the first grapes of the new Quinta do Tamariz Touriga Nacional's vineyards, we produced our first Pet Nat rosé. Sparkled using the ancestral method, with the end of fermentation occurred in the bottle, being therefore subject to create a deposit.
